Squad Jira board: T12. Company Collaboration Platform | Board

Test scenario and Test case	Description	Birgit Tikk	Team member	Team member
		Date of retesting: Aug 7, 2024	Date of retesting: Aug 7, 2024	Date of retesting: Aug 7, 2024
		OS: Android 14, One UI 6.1	OS: Windows 10 Pro (22H2)	OS: Windows 11 Home 23H2
		Browser: Google Chrome version 127.0.6533.84	Browser: Mozilla Firefox 128.0.3 (64-bit)	Browser: Google Chrome version 127.0.6533.89

Login module ↗				
LG01. Login with valid credentials	Check that system behaves correctly when correct username and password are given. Try with both regular user and administrator roles.	<div>✖ Failed</div> <div>T12CCP-150: User Login - Login page is not accessible</div>	<div>✖ Failed</div> <div>T12CCP-413: Home Page - Unnecessary "Enable push notifications" modal window popup exists</div> <div>T12CCP-138: User Login - User can log in with weak password</div>	<div>✖ Failed</div> <div>T12CCP-413: Home Page - Unnecessary "Enable push notifications" modal window popup exists</div> <div>T12CCP-138: User Login - User can log in with weak password</div>
LG02. Login with empty username and password	This test is to make sure users cannot log into the system without providing a correct username and password.	<div>✖ Failed</div> <div>T12CCP-150: User Login - Login page is not accessible</div>	<div>✔ Passed</div>	<div>✔ Passed</div>
LG03. Login with invalid username	This test is to make sure the system validates the username. Provide incorrect username but a correct password.	<div>✖ Failed</div> <div>T12CCP-150: User Login - Login page is not accessible</div>	<div>✔ Passed</div>	<div>✔ Passed</div>
LG04. Login with invalid password.	This test is to make sure the system validates the password. Provide correct e-mail address and incorrect password. Try with both user and administrator roles.	<div>✖ Failed</div> <div>T12CCP-150: User Login - Login page is not accessible</div>	<div>✔ Passed</div>	<div>✔ Passed</div>
Logout module ↗				
LO01. Logging out of the system	This test is to verify that the user or admin is able to log out of the system and cannot navigate back to it without logging in again.	<div>✖ Failed</div> <div>T12CCP-150: User Login - Login page is not accessible</div> <div>T12CCP-153: User Login - User can access all the app pages and information without logging in</div>	<div>✖ Failed</div> <div>T12CCP-302: Logout - User can navigate back to the system after logout</div>	<div>✖ Failed</div> <div>T12CCP-302: Logout - User can navigate back to the system after logout</div>
Self-registration ↗				
SR01. Verify Navigation to Registration Page	Ensure the user can navigate to the registration page from the login page.	<div>✖ Failed</div> <div>T12CCP-150: User Login - Login page is not accessible</div>	<div>✔ Passed</div>	<div>✔ Passed</div>

SR02. Verify mandatory fields validation	<p>Ensure all mandatory fields are required for successful registration.</p> <p>Mandatory fields are:</p> <ul style="list-style-type: none"> Employee First name Employee Last name Employee email Employee password 	<p>⚠ Blocked</p> <p>T12CCP-150: User Login - Login page is not accessible</p>	<p>✅ Passed</p>	<p>✅ Passed</p>
SR03. Verify email format validation	<p>Ensure the email field accepts only valid email formats (name@domain.com)</p>	<p>⚠ Blocked</p> <p>T12CCP-150: User Login - Login page is not accessible</p>	<p>✅ Passed</p>	<p>✅ Passed</p>
SR04. Registration with an existing email	<p>Ensure that the new user cannot register with an email address that already exists in the system.</p>	<p>⚠ Blocked</p> <p>T12CCP-150: User Login - Login page is not accessible</p>	<p>❌ Failed</p> <p>T12CCP-367: Self-registration - User can register with an existing email</p>	<p>❌ Failed</p> <p>T12CCP-367: Self-registration - User can register with an existing email</p>
SR05. Verify password complexity	<p>Ensure the password meets the complexity requirements and cannot be submitted if not all requirements are met.</p>	<p>⚠ Blocked</p> <p>T12CCP-150: User Login - Login page is not accessible</p>	<p>✅ Passed</p>	<p>✅ Passed</p>
SR06. Verify optional fields	<p>Ensure the user can enter additional optional information.</p>	<p>⚠ Blocked</p> <p>T12CCP-150: User Login - Login page is not accessible</p>	<p>✅ Passed</p>	<p>✅ Passed</p>
SR07. Verify profile picture upload and removal	<p>Ensure the user can upload a profile picture to the Profile photo section within specified constraints and also remove it.</p> <ul style="list-style-type: none"> jpg or png format Max possible size 1200x1200px one picture per profile 	<p>⚠ Blocked</p> <p>T12CCP-150: User Login - Login page is not accessible</p>	<p>❌ Failed</p> <p>T12CCP-368: Self-registration - Invalid picture files can be uploaded and submitted</p>	<p>❌ Failed</p> <p>T12CCP-368: Self-registration - Invalid picture files can be uploaded and submitted</p>

SR08. Verify notification preferences	Ensure the user can set notification preferences during registration.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
SR09. Verify successful registration with valid data	Ensure a new user can successfully register with all mandatory fields correctly filled. After registration, user exists in the Registration submissions page list.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
SR10. User access to the system before activation	Ensure the new user cannot access the system until the administrator activates the profile.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
SR11. Only administrator can access "Registration submissions" page	"Registration submissions" page is not visible nor accessible to regular users(both from the menu and having the page URL). Only administrator can see and access it.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-371: Self-registration - Normal user can access "Registration submissions" page	 Failed T12CCP-371: Self-registration - Normal user can access "Registration submissions" page
SR12. Administrator activating a new user	Administrator can activate the user from the user preview page after the user has submitted the registration form.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-372: Self-registration - Administrator can't activate the user (activation button missing)	 Failed T12CCP-372: Self-registration - Administrator can't activate the user (activation button missing)
SR13. User access to the system after activation	User can access the system with the credentials made during the registration process.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Blocked T12CCP-372: Self-registration - Administrator can't activate the user (activation button missing)	 Blocked T12CCP-372: Self-registration - Administrator can't activate the user (activation button missing)
SR14. Verify data persistence and editability	Ensure all data entered during registration can be edited and saved.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Blocked T12CCP-372: Self-registration - Administrator can't activate the user (activation button missing)	 Blocked T12CCP-372: Self-registration - Administrator can't activate the user (activation button missing)

Directory module ↗				
Verifying user access ↗				
DI01. Directory page accessibility	Verify that users have access to the Directory page.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
DI02. Navigation between pages	Verify that the user can navigate using the top menu and that the correct button is active when on the Directory page.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-406: Events Module - Wrong heading and missing “Events” button T12CCP-140: Navigation Bar - Home button error	 Failed T12CCP-406: Events Module - Wrong heading and missing “Events” button T12CCP-140: Navigation Bar - Home button error
Viewing list of employees and its profile previews ↗				
DI03. Employee information in the directory page view	Verify that each employee's additional information is correctly displayed on the Directory page.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
DI04. Employee profile information is visible to all users	Verify that employees can view detailed information of another employee.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-303: Employee Detailed View - Information cut off by scaling size T12CCP-304: Employee Detailed View - “My list” button has wrong title	 Failed T12CCP-303: Employee Detailed View - Information cut off by scaling size T12CCP-304: Employee Detailed View - “My list” button has wrong title
Searching employees ↗				
DI05. Search bar functionality	Verify that employees can search for an employee by name.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
DI06. Search bar invalid input search	Verify system behavior when searching with invalid or atypical input.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
DI07. Search bar empty search	Verify system behavior when performing a search with an empty input field.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
Bookmarking employees ↗				
DI08. Employee bookmarking	Verify that employees can be bookmarked and that the bookmark status is correctly updated and displayed.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed

DI09. Employee bookmark removal	Verify that employees can be unbookmarked and that the bookmark status is correctly updated and displayed.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
Sorting and filtering employees ↗				
DI10. Employee list sorting	Verify that employees can be sorted by First Name, Last Name, and Office, and that the sorting order (ascending/descending) works as expected.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
DI11. Employee filtering	Verify that employees can be filtered by department, country, skills, title, certification, and expertise using the left panel filters.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
Managing employees information ↗				
DI12. Admin changing user information	Verify that an administrator can edit specific employee information.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-191: Admin Edit User - All the profile preview information is not available to edit	 Failed T12CCP-191: Admin Edit User - All the profile preview information is not available to edit
DI13. Admin deleting employee profiles	Verify that an administrator can delete an employee.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-184: Directory - There is no "Delete" button on user profiles for admin	 Failed T12CCP-184: Directory - There is no "Delete" button on user profiles for admin
DI14. Admin adding new employee profiles	Verify that an administrator can add a new employee.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-305: Create Profile - Cannot add new employee	 Failed T12CCP-305: Create Profile - Cannot add new employee
DI15. Editing other employee's profile as a non-admin	Verify that a non-administrator user does not have access to editing other employees information from both profile preview and Admin Edit user URL.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
DI16. Deleting a profile as a non-admin	Verify that a non-administrator user can not delete other employees.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed

DI17. Adding new employees with missing required fields	Verify system behavior when attempting to add a new employee with missing required fields.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
DI18. Editing employee information with invalid data	Verify system behavior when attempting to edit employee information with invalid or malformed data.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Blocked T12CCP-191: Admin Edit User - All the profile preview information is not available to edit	 Blocked T12CCP-191: Admin Edit User - All the profile preview information is not available to edit
DI19. Adding new profile with incorrect e-mail format	Verify system behavior when entering an invalid email format during profile creation.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
DI20. Creating duplicate employee profiles	Verify system behavior when attempting to add an employee with the same name or other unique identifiers as an existing employee.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Blocked T12CCP-305: Create Profile - Cannot add new employee	 Blocked T12CCP-305: Create Profile - Cannot add new employee

Department module [↗](#)

Viewing and filtering list of all departments [↗](#)

DM01. Department module visibility and access	This test is to verify that the “Departments” page is visible to all users and admins and they can access it.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
DM02. Departments viewing and searching	This test is to verify that the list of departments is displayed correctly and can be filtered according to the use case.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
DM03. Department list filtering by parent departments (one or multiple)	This test is to verify that departments can be filtered by parent departments in the filtering menu.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed

DM04. Department list filtering by offices	This test is to verify that departments can be filtered by Offices.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
DM05. Department list filtering by contact person	This test is to verify that departments can be filtered by a name of the contact who is linked to a department.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-307: Department Page - Cannot filter by contact person name	 Failed T12CCP-307: Department Page - Cannot filter by contact person name
Bookmarking departments 				
DM06. Bookmarking departments	This test is to verify that departments can be bookmarked and unbookmarked in the departments menu and be used with additional filters.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
Department information 				
DM07. Viewing detailed department information	This test is to verify that all users can view detailed department information and that correct information is displayed.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
Managing department information 				
DM08. Department edit admin access	This test is to verify that the user in administrator role can access the department information editing page.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
DM09. Adding information to departments	This test is to verify that admin can create a new department and add information to new departments.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-309: Department Edit - Cannot add key contact to a department	 Failed T12CCP-309: Department Edit - Cannot add key contact to a department
DM10. Editing department information	This test is to verify that admin user can edit department information.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-309: Department Edit - Cannot add key contact to a department	 Failed T12CCP-309: Department Edit - Cannot add key contact to a department
DM11. Verifying correct descriptions and placeholders	This test is to verify that all fields have correct descriptions	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed

	and placeholder texts as described in the use case.			
DM12. Saving changes and publishing	This test is to verify the admin can save and publish the changes made to the department information.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
DM13. Information visibility as a regular user	This test is to verify that other users can see the information added or changed by the admin.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
Events module 				
Verifying user access 				
EM01. Authenticated users have access to Events page	Verify that authenticated users(employees, admins) can access the Events page.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-406: Events Module - Wrong heading and missing "Events" button	 Failed T12CCP-406: Events Module - Wrong heading and missing "Events" button
EM02. Unauthenticated users cannot access the Events page	Verify that unauthenticated users cannot access the Events page with the page URL.	 Failed T12CCP-153: User Login - User can access all the app pages and information without logging in	 Failed T12CCP-414: Events Module - Unauthenticated user can access the Events page with the page URL	 Failed T12CCP-414: Events Module - Unauthenticated user can access the Events page with the page URL
Viewing list of all added events and its previews 				
EM03. List of all added events is shown correctly	Verify that list of events has correct info and is sorted by the start date by default.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-408: Events Module - Events are not in alphabetical order and manager email is not displayed	 Failed T12CCP-408: Events Module - Events are not in alphabetical order and manager email is not displayed
EM04. All event previews information is shown correctly	Verify that all event previews have correct info.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-408: Events Module - Events are not in alphabetical order and manager email is not displayed	 Failed T12CCP-408: Events Module - Events are not in alphabetical order and manager email is not displayed
Searching events 				
EM05. User can search events by name	Verify that the search returns relevant results with both full and partial event name search.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
EM06. Search with empty field	Verify the behavior of the system when the search bar field is left empty.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed

Bookmarking events ↗				
EM07. User can add and remove bookmarks	Verify that user can bookmark events, see the bookmarked events and also be able to remove bookmarks.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
Sorting and filtering events ↗				
EM08. Event list sorting	Verify that users can apply sorting by the Start date, End date, Event type, Office and that the sorting order(oldest, newest) works as expected.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-409: Events Module - Event filtering missing "Event type" selection	 Failed T12CCP-409: Events Module - Event filtering missing "Event type" selection
EM09. Event list filtering	Verify that events can be filtered by type, office and start date.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-410: Events Module - The sorting filter "Filtering by Office" missing	 Failed T12CCP-410: Events Module - The sorting filter "Filtering by Office" missing
Administrator managing events information ↗				
EM10. Only administrator has access to the adding new events functionality	Verify that other authenticated users besides admin cannot see "+" button nor add new events.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-411: Events Module - Regular user can add events	 Failed T12CCP-411: Events Module - Regular user can add events
EM11. Admin adding new events	Verify that an administrator can add new events to the events list.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-412: Events Module - The page should be called "Add New Event" T12CCP-416: Events Module - Field errors T12CCP-417: Events Module - Redundant stretched-out image at the bottom T12CCP-418: Events Module - Redundant "Start over" button and stretched-out image at the submission confirmation page	 Failed T12CCP-412: Events Module - The page should be called "Add New Event" T12CCP-416: Events Module - Field errors T12CCP-417: Events Module - Redundant stretched-out image at the bottom T12CCP-418: Events Module - Redundant "Start over" button and stretched-out image at the submission confirmation page
EM12. Admin editing events	Verify that an administrator can edit specific event information from the event preview.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-415: Events Module - Missing "Edit" and "Delete" buttons	 Failed T12CCP-415: Events Module - Missing "Edit" and "Delete" buttons
EM13. Admin deleting events	Verify that an administrator can delete specific event from the event preview.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-415: Events Module - Missing "Edit" and "Delete" buttons	 Failed T12CCP-415: Events Module - Missing "Edit" and "Delete" buttons

EM14. Admin editing same event on 2 tabs at the same time	Verify that while admin is editing a specific event on one browser tab and deleting the same event on another browser tab, admin cannot save an event that has been deleted from another tab.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Blocked T12CCP-415: Events Module - Missing "Edit" and "Delete" buttons	 Blocked T12CCP-415: Events Module - Missing "Edit" and "Delete" buttons
User Profile 				
UP01. Accessing user profile	This test is to verify that the user can access the user profile screen.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
UP02. User profile correct data field headings	This test is to make sure that all the data fields in the Profile edit page have a correct heading and have no typos.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
UP03. All fields are correct type	This test is to verify that all fields on the profile edit page are a correct type of field and function as intended.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
UP04. User profile data is saved	This test is to make sure changes in the user profile get saved and is displayed to other users via the directory.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-405: User Profile - The "Accessibility needs" field is not saving information	 Failed T12CCP-405: User Profile - The "Accessibility needs" field is not saving information
User lists(Internal clubs) 				
UL01. Viewing All User Lists	Verify that every authenticated user can see a list of all User Lists.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-379: User Lists - List of all User Lists is not in alphabetical order	 Failed T12CCP-379: User Lists - List of all User Lists is not in alphabetical order
UL02. Viewing and Interacting with User Lists	Verify that a user can view detailed information, search, filter, and observe sorting of User Lists.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-379: User Lists - List of all User Lists is not in alphabetical order	 Failed T12CCP-379: User Lists - List of all User Lists is not in alphabetical order

UL03. Contacting the Owner of a User List	Verify that a user can contact the owner of a User List to join it.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
UL04. Creating a New User List	Verify that every authenticated user can create a new User List.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Failed T12CCP-383: User Lists - No "Public" or "Private" drop-down menu, a notification message and a field length error	 Failed T12CCP-383: User Lists - No "Public" or "Private" drop-down menu, a notification message and a field length error
UL05. Deleting a User List	Verify that the owner of a User List can delete the list they created.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
UL06. Adding a person to a user list	Verify that the owner of a User List can add another person to their User List.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
UL07. Removing a person from a user list	Verify that the user can remove a person from a User List where they are the owner by clicking the "Remove" button.	 Blocked T12CCP-150: User Login - Login page is not accessible	 Passed	 Passed
